

Craft Idea Project: Make your own scrapbooking tags!
Make your own scrapbooking tags

Ooh, look! Beautiful hand made scrapbooking tags! Keep reading and you will learn how to make your own (it's easy, cheap and fun and you can brag about them!)

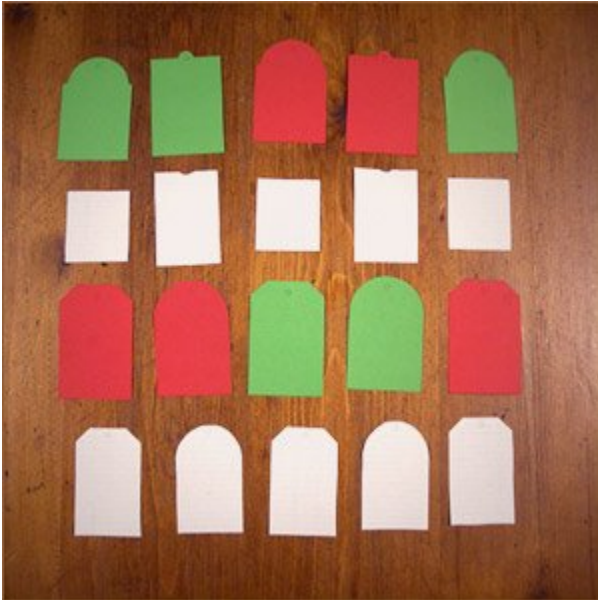

For this craft project you will need the following supplies:
3 thick papers (one light, for example white or lemon yellow and two darker. I'm making Christmas scrapbooking tags, so I have picked green and red, but of course you can choose any colours which match your layout.
A pair of scissors
A fancy pen (I borrowed a golden pen from my daughter's pen jar...)

An ordinary paper puncher for making holes.

A nice piece of ribbons, you will need approximately 10 cm for each tag.

Paper glue

A ruler, a pencil and rubber if you want to make a sketch before you write on the tags.(Not really necessary).

Download and print the two scrapbooking tags templates on your coloured paper and neatly cut along the marked lines. Download the template for the outer profile (which I printed on the red and green paper) by clicking [here](#) and download the template for the inner profile (for the lighter paper) by clicking [here](#).

Use the paper glue and carefully mount the inner paper on top of the outer (green and red) tags. Piece of cake! Now to the tricky part...

You need to punch a hole into the tag, by carefully measure where you want it, and keep you fingers cross... and... Punch! When that (nerve-racking part) is finished, add the ribbon by threading both ends thru the hole and then tie it off. Then it's time for the handwriting decoration part. I choose a slightly italic writing with my (borrowed) golden pen and also add a little golden frame. Oooh, isn't that the most beautiful scrapbooking tag, you've ever seen? (Oh, alright... But, it is pretty, don't you think?)

Ah, the stunning result! Four fantastic scrapbooking tags...But wait, there is more...

As a variation to the ribbon scrapbooking tags, you can instead make a little tied bow. This demands some patient and really nimble fingers, but the result is really worth it.

And here they are, four sweet scrapbooking tags with tied bows.

Yay! The final result! Eight Christmas scrapbooking tags in different colours and in two different styles, ready to be used for Christmas presents, scrapbooking projects, cardmaking, etc.

And now... It's your turn! Go on, make your own scrapbooking tags!

Scrap and Love, everybody!
